```

The diagram illustrates a file dependency structure. At the top is a grey rectangular box containing the path to a header file: `G:/Folder_Dawida/Prace_me/Git/DawRad-projekty/EURObiznes/EURObiznes/mainwindow.h`. Below this box are two white rectangular boxes. The left box contains the path to a source file: `G:/Folder_Dawida/Prace_me/Git/DawRad-projekty/EURObiznes/EURObiznes/main.cpp`. The right box contains the path to another source file: `G:/Folder_Dawida/Prace_me/Git/DawRad-projekty/EURObiznes/EURObiznes/mainwindow.cpp`. Two blue arrows point from the top-right corner of the left box and the top-left corner of the right box towards the bottom edge of the top grey box, indicating that both source files include or depend on the header file.
